Friday, 16th October 2009	
9:00 - 9:20	<i>Richard Wiese, Grzegorz Dogil & Hubert Truckenbrodt</i> Zentralprojekt
9:20 - 10:00	<i>Thomas Jakobsen & Hubert Truckenbrodt</i> (Universität Leipzig, ZAS) “Pre-attentive phonotactic processing“
10:00 - 10:40	<i>Frank Domahs & Walter Huber</i> (RWTH Aachen) “Exploring the interplay of segmental and suprasegmental information: Representation and processing of word stress”
10:40 - 11:00	Coffee break
11:00 - 11:40	<i>Claudia Friedrich & Brigitte Röder</i> (Universität Hamburg) “Multisensory plasticity of neuronal word form representations“
11:40 - 12:20	<i>Isabell Frohn-Wartenburger, Barbara Höhle & Hubert Truckenbrodt</i> (Universität Potsdam, ZAS) “Development of prosodic competence in early first language acquisition: Behavioral and neurophysiological investigations“
12:20 - 13:00	<i>Ruben van de Vijver</i> (Universität Potsdam) “The acquisition of voicing and vowel alternations in German morphophonology
13:00 - 14:00	Lunch
14:00 - 14:40	<i>Jonathan Harrington</i> (Universität München) „Acoustic, articulatory and perceptual analyses of the post-vocalic voicing contrast in German“
14:40 - 15:20	<i>Martine Grice & Doris Mücke</i> (Universität Köln) “Tonal and Articulatory Marking of Information Structure: Kinematic and Acoustic Correlates of Accentuation ('TAMIS')“
15:20 - 15:40	Coffee break
15:40 - 16:20	<i>Ingo Hertrich & Hubert Truckenbrodt</i> (Universität Tübingen, ZAS) “Behavioral and neural correlates of vowel length in German and of its interaction with the tense/lax contrast“
16:20 - 17:00	<i>Philip Hoole</i> (Universität München) “Articulatory cross-language study of initial consonant clusters in varying prosodic conditions”
17:00 - 17:20	Coffee break
17:20 - 18:00	<i>Frank Kügler, Caroline Féry & Shravan Vasishth</i> (Universität Potsdam, Universität Frankfurt) “Prosody in Parsing“
18:00 - 18:40	<i>Bettina Braun</i> (Universität Konstanz) “A new window on intonational form and function”
19:30	Dinner at the Kongresshotel Potsdam

Saturday, 17th October 2009	
9:00 - 9:40	<i>Holger Mitterer & James McQueen</i> (MPI Nijmegen) “Adapting to phonological reduction: Tracking how learning from talker-specific episodes helps listeners recognize reduced speech“
9:40 - 10:20	<i>Henning Reetz</i> (Universität Frankfurt) “Reductions in running speech“
10:20 - 10:40	Coffee break
10:40 - 11:20	<i>Carsten Eulitz & Aditi Lahiri</i> (Universität Konstanz, University of Oxford) “Neurolinguistic correlates in processing phonological stem-variants of complex words“
11:20 - 12:00	<i>Pienie Zwitserlood, Christian Dobel & Christo Pantev</i> (Universität Münster) “Neural and psychological correlates of phonological categories“
12:00 - 13:00	Lunch
13:00 - 13:40	<i>Bernd Möbius & Petra Wagner</i> (Universität Bonn, Universität Bielefeld) “The syllable as a processing unit in speech production: Evidence from frequency effects on coarticulation“
13:40 - 14:20	<i>Richard Wiese & Ulrike Domahs</i> (Universität Marburg) “Word stress: rules and representations“
14:20 - 15:00	Closing discussion
