

SPP 1234-Workshop on Neurophonology of Speech Perception
University of Konstanz 2008
 Organised by Carsten Eulitz

	Wednesday, 5.3.	Thursday, 6.3.	Friday, 7.3.	Saturday, 8.3.
9:30-10:30		T. Kujala (Helsinki): The MMN reflecting brain plasticity in language processing	I. Winkler (Budapest): Predictive models in auditory perception: In search for auditory object representations	Excursion & Departure
10:30-11:00		coffee break		
11:00- 12:30		<i>U. Schild, C. Friedrich:</i> Developmental plasticity of neuronal representations and processes	<i>J. Steinberg, T. Jacobsen, H. Truckenbrodt:</i> Pre-attentive phonotactic processing	
12:30-14:00		lunch break		
14:00-15:30		<i>H. Bien, P. Zwitserlood, J. Bölte:</i> Neural and psychological correlates of phonological categories	<i>S. Cornell, R. Hannemann, C. Eulitz, A. Lahiri:</i> The phonological fine structure of the mental lexicon: EEG evidence from speech perception	
15:30-16:00		coffee break		
16:00-17:00		Arrival	A. Lahiri (Oxford): If I could have three wishes granted by a neuroscientist...	
		exploring Konstanz	workshop dinner
